Screen Printing Pricing Matrix

Our screen printing service pricing is based on four major criteria.

- **Number of items** – Effectively, this is the number of garments.
- **Number of Print locations** – Speaks for itself
- **Number of colors**– Simply put, this is the total number of colors in the design
- **Specialty Services** – Finishing and add-on services such as foil, heat seal or additives.
- **GARMENTS PRICING IS SEPARATE AND ADDITIONAL.**

While we can try to estimate the price of your project based on these criteria, it's always best to contact us directly for a quote.
